OZONE

The Health Giver

Nature's Own Aid in Relieving Disorders of the Nose, Throat and Lungs. Builds Up Blood.

(Copyright, 1923, Renulife Electric Co., Detroit, Mich.)

OZONE is literally a world builder. It has everything to do with metabolism—that is, the process by which food is converted into bodily tissues.

You notice Ozone in the air particularly after a thunder storm. Lightning passing through the air causes it. It is Ozone that gives the air at such times that crisp, pungent, stimulating, invigorating effect you have so often noticed.

During the war Ozone was extensively used in the treatment and sterilization of wounds. Large corporations use Ozone machines to freshen and purify the air in crowded spaces. It destroys the germs and bacteria in such places—because it is a very powerful germicide and antiseptic.

Ozone Builds Up the Blood

The blood is the life fluid of the body. Health depends on its purity. Blood is made up of two parts. First, the plasma, which is the white, transparent fluid and, second, the corpuscles. There are two kinds of corpuscles—white and red.

The red corpuscles are the Oxygen carriers. And every part of the body needs Oxygen in unfailing quantity all the time. The red corpuscles gather oxygen from the lung cells and carry it to all parts of the body.

People who are deficient in red corpuscles, or whose corpuscles are not good Oxygen carriers, are never really healthy. Their skin is sallow. They suffer from headaches, from loss of appetite, from restlessness. They catch diseases easily—and never feel really right. Their noses, throats and lungs are always slightly or seriously irritated.

How Ozone Treatment Increases Health and Vigor

Ozone is a stimulant without any reaction. In a sense it is concentrated Oxygen—that vital element without which life would cease.

It acts directly on the blood—increasing the oxygenation of the blood, and is a great aid in relieving high blood pressure.

It brings increasing health and vigor to your whole system. Just stop and think how invigorating to breathe the fresh, pungent, stimulating air after a thunder storm, and remember that it is Ozone that causes that good feeling.

Its stimulating effect is instant, and with use, becomes permanent. Because it is such a wonderful germicide and antiseptic it helps to keep you free from diseases that would otherwise have a chance to develop.

Try it some time when you feel blue, and when you are suffering from melancholia and other depressing conditions. You will feel stimulated, refreshed, invigorated, head clear and eyes bright. And when you feel that way, why then you are well and happy.

The Renulife Violet Ray Health Generator Makes Ozone Treatments Possible In Your Own Home at Small Cost

Disorders of the Nose, Throat, Lungs Quickly Relieved by Renulife Ozone Treatment

Your nose, throat, larynx, bronchial tubes and lungs are constantly being attacked by impurities and germs. The air you breathe is filled with them. These impurities and bacteria inflame the sensitive membrane lining of the nose, throat and lungs.

You have noticed the effects of such irritation and inflammation hundreds of times, in your friends and in yourself. You hear people, and you, yourself, complain of your nose being stopped up, of a headache without an apparent reason, of loss of appetite, of hoarseness, of slight, annoying coughs, of mucous in the throat, especially in the morning—all only slight disorders, but all liable to grow serious or develop into chronic conditions.

Asthma, LaGrippe, Bronchitis, Colds, Influenza, Laryngitis, Pneumonia, Tonsilitis, Whooping Cough—these are all caused by germs or impurities which have had a chance to breed and thus infect the nose, throat or lungs.

Renulife Ozone Treatments prevent just such infections—or if the disorder is present such treatment acts as a wonderful healing agent, because it brings healing Ozone into direct contact with the inflamed mucous membrane surface, and there the Ozone acts as a germicide and antiseptic and a soothing application.

Many physicians attest the benefits of such treatment, and hundreds and hundreds of letters from grateful people who have been helped show that Renulife Ozone treatments are a great aid. Their experience points the way for you to find relief.

Read What Medical Authorities Say About Ozone Treatment

Noble M. Eberhart, M. D., Ph. D., D. C. L.

"Ozone increases the Oxygenation of the blood and tissues, increasing the number of red corpuscles. Germs are destroyed by it. It is particularly beneficial in the treatment of all diseases of the respiratory organs, including Tuberculosis, infectious diseases and all conditions where there is imperfect oxidation and impaired nutrition."

Chas. S. Neiswanger, M. D.

"Ozone acts as a powerful antiseptic in contact with diseased mucous surfaces, consequently its beneficial action is quickly apparent in all treatment of Bronchial and Laryngeal affections, Catarrh, Hay Fever and all diseases of the respiratory organs. When inhaled, it hastens the oxidation of the blood, increases the red blood corpuscles and, by producing a feeling of well being in the patient, is of the greatest value in Neurasthenia, Melancholia, Hysteria, Psychologic Impotence and other Neuroses."
